Final Filing Date:
Open Until Filled

Ultrasound Technologist
Full time

Salary:
\$40.03-\$60.55 Dependent on
Experience

Modoc Medical Center is accepting applications for a full-time benefitted Ultrasound Technologist in the Acute Hospital. Under the supervision of the Lead Radiology Technologist, the Ultrasound Technologist performs ultrasonic recordings of the human body in an effort to facilitate diagnosis, screening, and patient treatment.

Job Responsibilities include (but not limited to):

- Performs clinical assessment and diagnostic sonographer examinations. Performs ultrasound procedures, to include OB, Thyroid, and General Abdomen
- Selects the appropriate equipment for use in ultrasound setup, following exam specifications.
- Explains ultrasound exams to the patients receiving them.
- Performs all aspects of patient care related to this position in an environment that optimizes patient safety and reduces the likelihood of medical/health errors.
- Enters test data and patient information into computer systems as appropriate.
- Moves transducer, by hand, over specified area of the body and observes sound wave display screen to monitor quality of ultrasonic pattern produced.
- Produces images of internal organs and records diagnostic data within established electronic systems
- Evaluates technical quality of images to obtain representative images of patient conditions, processes images in accordance with standard procedures and techniques.
- Discusses test results with supervisor or attending physician.
- Performs all quality control checks, as prescribed and Maintain accurate QC logs, service records, etc.
- Maintains records of ultrasound images taken, archiving data as required; calculates, compiles, and records data from readings appropriately in the electronic medical record system.
- Calibrates, cleans and performs routine maintenance on equipment to ensure proper functioning, within standard operating procedure.

Minimum Qualifications:

- Graduate from an accredited Diagnostic Medical Sonography program and/or a Registered Diagnostic Medical Sonography (RDMS) certification and/or established hospital/clinical experience in Sonography with a willingness to become certified.
- X-ray and/or CT experience a plus
- CRT certification a plus
- 1-2 years previous experience as an ultrasound technologist preferred.
- Successful completion of an approved one-year program in ultrasound technology
